

Attachment 1: MCH Partnerships, Collaboration, and Coordination

As highlighted throughout the application and annual report, NY's Title V Program has extensive partnerships to meet the needs of NY's MCH population, including coordination and collaboration with other public health programs, state and local agencies, private sector partners, families and consumers. Key partnerships, collaboration and coordination are summarized below. Note that due to the extensive nature of NYS Title V partnerships, this summary highlights selected partners and collaborations most relevant to MCH needs, priorities and strategies outlined in this application.

Partner	Selected Partnership Highlights
State Advisory Councils	
Maternal and Child Health Services Block Grant (MCHSBG) Advisory Council	<ul style="list-style-type: none">• Title V staff convene and provide staff support to Council• Through regular virtual and in-person meetings, Council members provide input and feedback on full range of Title V priorities and activities.• Discussions held during Council meetings specifically for review and input for NY's Title V State Action Plan.
Early Intervention Coordinating Council (EICC)	<ul style="list-style-type: none">• Title V participate in the EICC meetings, which are convened and supported by Early Intervention• Extensive input on EI policy and program activities including State Systemic Improvement Plan to improve family outcomes• Co-convened, with ECAC, Joint Task Force on Social Emotional Development of Young Children• Issued guidance on meeting the social emotional development needs of infants and toddlers and their families for EI, primary care, and other early childhood providers, in conjunction with the ECAC.
Early Childhood Advisory Council (ECAC)	<ul style="list-style-type: none">• Title V staff /Early Intervention Staff represented on Council, Steering Committee and strategic plan teams• Collaboration on promotion of developmental screening by PCPs• Co-convening, with EICC, of Joint Task Force on Social Emotional Development of Young Children

	<ul style="list-style-type: none"> • Issued guidance on meeting the social emotional development needs of infants and toddlers and their families for EI, primary care, and other early childhood providers, in conjunction with the EICC.
NYS Office of Victims Services Advisory Council	<ul style="list-style-type: none"> • Title V staff represented on Council; provides expertise regarding prevention of sexual violence.
Office for the Prevention of Domestic Violence	<ul style="list-style-type: none"> • Title V staff represented on Council; provides expertise regarding prevention of sexual violence and intimate partner violence.
Other HRSA MCHB Investments	
State Systems Development Initiative (SSDI)	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH • SSDI staff support development of measures, review and analysis of data to support MCH planning and projects
Maternal, Infant and Early Childhood Home Visiting (MIECHV)	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH, Bureau of Women, Infant & Adolescent Health • Strong focus on systems-building; integrates MIECHV with other Title V and MCH resources
Early Childhood Comprehensive Systems (ECCS) Impact Grant	<ul style="list-style-type: none"> • Original NYS ECCS grant co-led by Title V and Council on Children and Families (CCF); subsequently transferred to CCF, with continued Title V engagement to support current grant focus to increase the developmental skill among three-year old children living in two communities by 25%.
MCH Training Grants	<ul style="list-style-type: none"> • MCH Catalyst Program at SUNY Albany School of Public Health joint DOH-SPH initiative. Past Title V director co-directs program, with a focus on significantly strengthening connections with Title V program and current MCH workforce. • MCH Workforce Development Center at the University of North Carolina for technical assistance for systems mapping exercise in CSHCNs priority area.
Autism Research Grant	<ul style="list-style-type: none"> • Completed a multi-year research project funded by the federal MCHB R-40 research program to evaluate the impact of participation in the State's EIP on toddlers

	with ASD and their families. Presented a poster session on study results at the 2017 International Meetings for Autism Research.
Autism Clinical Practice Guidelines and Autism Videos	<ul style="list-style-type: none"> Engaged a panel of experts and consumers to update the evidence-based clinical practice guideline on assessment and intervention services for young children with autism spectrum disorders.
Abstinence Education Grant Program – HRSA	<ul style="list-style-type: none"> Directly managed by Title V program within DFH. Coordinates with pregnancy prevention efforts by targeting pre-adolescents in NYS’ highest need communities by providing mentoring and adult supervised opportunities.
NYS CoIIN to Reduce Infant Mortality 2.0	<ul style="list-style-type: none"> Statewide collaboration initiated by the Title V program targeting safe sleep to reduce infant mortality. The project will be working with community-based organizations across NYS, including MICHCs, Healthy Start and Healthy Families, to improve safe sleep education and practices among caregivers, and reduce disparities in those practices.
Oral Health -HRSA	<ul style="list-style-type: none"> Title V staff are collaborating with several community health centers in a learning collaborative focused on increasing application of fluoride varnish by medical professionals in underserved populations.
Other Federal Investments	
Family Planning (Title X) – Office of Population Affairs	<ul style="list-style-type: none"> Directly managed by Title V program within DFH. Conducted a structured performance management project that has resulted in increased access to and use of effective contraceptive methods, including LARC, by women served in Title X family planning clinics.
Individuals with Disabilities Education Act (IDEA) Part C – OSEP	<ul style="list-style-type: none"> Part C grant and EI is directly managed by Title V program within DFH. DOH is the NYS designated lead agency to administer the EIP, a statewide service delivery system for infants and toddlers (ages birth to three) with disabilities and their families. A multi-year systemic improvement plan to improve family outcomes and family centered services for children and families is

	<p>being implemented in the Early Intervention Program. The PDSA/Learning Collaborative approach is being used with public officials, families, EIP providers, and other early childhood providers statewide to focus on family-centered practices that can improve for families and children.</p>
Personal Responsibility Education Program (PREP) – HHS	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH. Supports programming for priority populations served in the child welfare and juvenile justice systems. • Collaborates with CAPP programs to enhance pregnancy prevention efforts in the highest need communities.
Rape Prevention Education – CDC	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH. Development of a multi-faceted plan to evaluate regional and statewide activities to reduce sexual violence.
Rape Prevention Education/Supp. - CDC	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH. Development and enhancement of state-level data systems to track sexual violence.
Rape Prevention Education/Research- CDC	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH. Research study includes the implementation of the Council for Boys and Young Men (Brothers As Allies) curriculum with males aged 12-14 to reduce risk for future sexual violence perpetration.
Special Supplemental Program for Women, Infants & Children (WIC) – USDA	<ul style="list-style-type: none"> • Managed by DOH Division of Nutrition. • Title V programs (e.g., home visiting) link eligible MCH populations to WIC resources • Exploring collaborations to promote oral health and maternal depression screening through WIC Program
Child Care Development Block Grant - ACF	<ul style="list-style-type: none"> • Managed by NYS Office of Children and Family Services. • Development of child care health and safety standards, including medication administration, as well as quality indicators for QualityStars NY • Plan to collaborate on development of subset of quality indicators for regulated child care settings in upcoming year
Support for Pregnant and Parenting Teens- OAH	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH. Enhances services of Title V

	programming by engaging pregnant and parenting teens and young adults in educational and vocational opportunities.
State Oral Disease Prevention Program - CDC	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH. Supports the dental public health infrastructure at the state-level to increase the capacity for achieving improvements in strategies that support evidence-based interventions, systems-level change, community-clinical linkages, and disease surveillance and monitoring; and to expand activities for community water fluoridation and school-based sealant program promotion and management.
Centers for Disease Control and Prevention/Council of State and Territorial Epidemiologists Zika virus Working Group	<ul style="list-style-type: none"> • Title V Medical Director serves as the MCH representative to the Committee
March of Dimes Big 5 State Prematurity Collaborative	<ul style="list-style-type: none"> • Title V Medical Director served on the Clinical and Public Health Practice Workgroup for the design of the Collaborative. • Through the NYSPQC, Title V staff have led the participation of NYS birthing hospitals in the collaborative, most recently on the topic of the appropriate administration of Antenatal Corticosteroid Treatment (ACT) to reduce neonatal morbidity.
Healthy Start	<ul style="list-style-type: none"> • In collaboration with the HRSA Regional Healthy Start Project Officer, Title V program coordinates communication and collaboration between the Healthy Start and Title V Maternal and Infant Community Health Collaboratives (MICHC) programs. • Ensure MICHC projects engage the seven Healthy Start grantees serving common communities in outreach, intake and referral processes. • Involve Healthy Start grantees in coordinated intake and referral pilots if happening in their communities.
Association of University Partners on Disabilities/University Centers for Excellence in Developmental Disabilities (Yeshiva University/ Albert Einstein College	<ul style="list-style-type: none"> • Title V participates in ongoing meetings with the Leadership Education in Neurodevelopment and Related Disabilities (LEND) fellows to share information

of Medicine, Westchester Institute for Human Development (WIHD) and Strong Center for Developmental Disabilities)	<p>regarding their post-graduate maternal and child health work performed as part of their fellowship training. Meetings also include representatives from the Developmental Disabilities Planning Council (DDPC), Disability Rights New York, Division of Family Children's Services, Title V program staff and other key stakeholders.</p> <ul style="list-style-type: none"> • Title V staff is a member of the WIHD Community Advisory Committee. • The co-Director of the UCEDD at WHID has been appointed to the Early Intervention Coordinating Council. • All three UCEDDs are participating in the consensus panel to update the Bureau of Early Intervention autism clinical practice guideline.
HRSA Bureau of Health Workforce – State Oral Health Workforce Grant	<ul style="list-style-type: none"> • Grant funding to support MCH oral health initiative focused on increasing access to quality preventive dental care for high risk young children (0-5 years) and adults (across the life course) through addressing oral health workforce needs. Program work includes oral health integration into pediatric/ primary care, and promoting the use of fluorides as preventive intervention through training medical and dental providers.
CDC Models of Collaboration Grant	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH. This funding supports the development of a model for collaborating with the Chronic Disease Program to integrate oral health into programs through addressing sugar sweetened beverages as a common risk factor for dental decay, obesity and diabetes. This project focuses on African American and Hispanic adolescent males in the Western New York, a region of the state with high rates of sugary drink consumption.
New York State Perinatal Quality Collaborative (NYSPQC) – CDC	<ul style="list-style-type: none"> • Title V staff lead the NYSPQC, a collaboration of NYS birthing facilities and stakeholders such as HANYS, GNYHA and ACOG District II, to improve perinatal

	<p>outcomes through the translation of evidence-based findings to clinical practice.</p> <ul style="list-style-type: none"> • 100 NYS birthing hospitals, representing all levels, have participated in one or more projects of the NYSPQC. • Title V staff leading the NYSPQC have worked with national partners such as: March of Dimes and ACOG, specifically on projects related to the prevention of preterm, and reducing maternal and infant morbidity and mortality.
National Network of Perinatal Quality Collaboratives (NNPQC) – CDC	<ul style="list-style-type: none"> • Title V staff participate in the NNPQC, through the NYSPQC, to support state-based perinatal quality collaboratives in making measurable improvements in statewide health care and health outcomes for mothers and babies • Title V staff serves on the NNPQC Executive Committee
State, Tribal and Local MCH Programs	
Local Health Departments/ New York State Association of County Health Officials	<ul style="list-style-type: none"> • Title V developed Family Health components of updated statute, regulations and implementing guidance documents for State Aid to localities for core public health (Article VI) • Regular meetings with NYSACHO Steering and MCH committees and ad hoc work groups for input on CSHCN program planning, Health Home, Early Intervention and Title V needs and priorities.
Tribes, Tribal Organizations and Urban Indian Organizations	<ul style="list-style-type: none"> • Title V program administers a state program that provides access to primary medical care, dental care, eye care, pharmacy needs and preventive health services for approximately 25,000 Native Americans living within reservation communities from nine recognized Tribal nations in NYS: Tonawanda, Tuscarora, Onondaga, Shinnecock, Unkechaug, Cayuga, St Regis Mohawk, Seneca and Oneida. • Title V staff serve as liaison with the Nations to ensure the interests of the Nations are represented in decisions and information, e.g. ACA- related information, is conveyed to Nation leadership.

	<ul style="list-style-type: none"> • Title V staff participates in periodic Tribal Consultation meetings with Office of Children and Family Services to share resources on child wellness, behavioral health, victim assistance programs, and educational resources for families. • Title V staff participate in federal statewide HHS Tribal Consultation on issues of substance misuse.
Other NYS Department of Health Programs	
Chronic Disease Prevention	<ul style="list-style-type: none"> • Title V staff in collaboration with the Division of Chronic Disease Prevention jointly developed media campaign on tobacco use among women of reproductive age and during pregnancy • Title V staff in collaboration with the Division of Chronic Disease Prevention integrated new family planning/ preconception health module within state's BRFSS, including expanded BRFSS for county-level data • Support hospital- and community-based strategies to promote breastfeeding in alignment with evidence-based obesity prevention programming • Promoted evidenced-based models and methods to implement and sustain a population-based, system change response to reduce asthma-related hospitalizations. • Will explore options to promote preconception and interconception health for the MCH population. • Title V staff participate in the Obesity Prevention in Child Care Partnership to improve physical activity in the early care and education setting. • Through the CDC Models of Collaboration for State Chronic Disease and Oral Health Programs grant, the Sugar Sweetened Beverage project is coordinating efforts across oral health and chronic disease prevention programs to integrate oral health resources, tools, and information into programs in community-based settings.

Nutrition	<ul style="list-style-type: none"> • Title V staff facilitated collaboration between nutrition programs and state's ECAC to expand enrollment in CACFP and incorporate nutrition standards and implementation supports within child care quality standards • Promoted participation in CACFP with Title V afterschool programs serving high-need youth and helped link to new Community Schools initiative • Title V staff are exploring collaborations to promote oral health through statewide nutrition programs including WIC and HPNAP • Title V staff are working with WIC to promote reciprocal referrals with home visiting programs. • Title V staff are working with WIC to promote safe sleep messages at WIC community sites.
Injury Prevention	<ul style="list-style-type: none"> • Title V staff are collaborating with the Bureau of Occupational Health and Injury Prevention (BOHIP) on evaluating the impact of DOH sexual violence prevention interventions • Title V staff are working with Injury Prevention and the MICHC's to promote Safe Sleep through Infant Mortality COIIN. • Title V staff have collaborated with BOHIP on developing research plan to assess maltreatment related hospitalizations and outpatient visits among children and adolescents. • Title V staff are collaborating with BOHIP to produce a webcast on home visiting. The aim is to increase referrals to home visiting, resulting in a decrease in child maltreatment.
Immunization	<ul style="list-style-type: none"> • Title V staff are working with Immunization program on providing training and educational tools for home visitors to support education to clients on importance and scheduling of required immunizations, and training of home visitors on the importance of their own immunizations being up to date.

	<ul style="list-style-type: none"> • Title V staff disseminated technical guidance on updated immunization recommendations in clinical quality measures for SBHC Program. • Title V staff are working with Immunization program to promote recommended immunizations (e.g. influenza and TDAP) for pregnant women.
HIV/AIDS	<ul style="list-style-type: none"> • Title V staff are collaborating with the DOH AIDS Institute and the State Education Department to promote the delivery of evidence-based HIV/STI prevention education. • Title V staff are working with the AIDS Institute to address opioid addiction in pregnant women through 3 selected health hubs across the state to increase knowledge of addiction as well as training physicians for treatment • Title V staff are participating in the DOH AI-lead workgroup on addressing the NYS opioid epidemic, specifically among adolescents and women of reproductive age. The focus of the workgroup is to address growing Neonatal Abstinence Syndrome (NAS) rates within Upstate New York. The workgroup includes several DOH and external partners such as representatives from the Harm Reduction Coalition, NYS Office of Alcoholism and Substance Abuse Services (OASAS) and local health departments.
Environmental Health	<ul style="list-style-type: none"> • Title V staff are collaborating with DOH Center for Environmental Health to support maintenance and expansion of community water fluoridation, and have released a new procurement to initiate/upgrade fluoridated community water systems. • Ongoing collaboration to promote healthy living environments.
Office of Health Insurance Programs	<ul style="list-style-type: none"> • Title V staff are working with DOH Office of Health Insurance Programs (OHIP) to integrate perinatal health strategies and measures within DSRIP. • Title V staff are extensively engaged in implementation of new Health Home benefit

	<p>for CSHCN, including services for children enrolled in EI services.</p> <ul style="list-style-type: none"> • Title V staff are implementing Medicaid-funded demonstration project to use health information technology to improve screening and coordinated follow-up for high risk pregnant women • Title V staff worked with DOH OHIP to convert Family Planning Benefit Program from 1115 waiver to state plan service pursuant to ACA, and expanded to include presumptive eligibility • Title V staff provide expertise in the development of Medicaid payment policies such as deliveries prior to 39 weeks without medical indication including C-sections, oral health and other areas impacting the MCH population. • Title V staff are collaborating with OHIP, Office of Quality and Patient Safety (OQPS) and Office of Public Health Practice (OPHP) on a study of Maternal Opioid Use and NAS Among NYS Medicaid Recipients, 2010-2015 to determine which counties have the highest burden, and therefore, the highest need for intervention.
NY State of Health (Health Insurance Exchange)	<ul style="list-style-type: none"> • Title V staff assisted with outreach to MCH programs to solicit patient navigators • Title V staff in collaboration with OHIP, facilitated training and the provision of information on NY's health benefit package and coverage to MCH programs and initiatives. Continue to monitor questions and issues that arise.
Quality & Patient Safety	<ul style="list-style-type: none"> • Title V staff provided input into the development of standards for Medicaid Prenatal Care clinics and continue collaboration to support implementation. • Title V staff provide input to, and serve on workgroups for the development and implementation of the SHIP and the development of models of Advanced Primary Care (APC). • Title V staff have a strong partnership with the Office of Quality and Patient Safety to obtain vital statistics data for identification

	<p>of priorities, program planning and evaluation as well as quality improvement initiatives.</p> <ul style="list-style-type: none"> • Title V staff have worked closely with the OQPS on a variety of initiatives. Currently, OQPS is conducting a two-year common-themed Performance Improvement Project (PIP) for 2017-2018, on the topic of Perinatal Care for 15 New York Medicaid Managed Care Organizations (MCOs). Staff provide clinical and QI expertise to support these improvement efforts. These projects work with health insurance plans and practices on targeted health issues which include the improvement of usage of 17OH Progesterone.
Primary Care and Health Systems Management	<ul style="list-style-type: none"> • In collaboration with Title V staff, provides certificate of need (CON) approval to SBHC and SBHC-Dental clinics. Also provides CON approval to family planning clinics and consults with Title V staff for programmatic input. • In collaboration with Title V staff, developed standards and criteria for oversight of the system of perinatal regionalization • Title V staff in conjunction with the Office of Victim Services developed communication disseminated to all NYS hospitals reminding them of the requirements concerning the reimbursement of forensic rape exams.
Minority Health & Health Disparities Prevention	<ul style="list-style-type: none"> • Office of Minority Health provides support to the DFH Health Equity committee: provides subject matter expertise on conducting community listening forums (CLF) and provided materials to complement the development of a toolkit for conducting CLFs.
Public Health Practice	<ul style="list-style-type: none"> • Title V staff are engaging with PHHPC public health committee on systems strategies to reduce maternal mortality. • Title V staff are participating in the Opioid Data Surveillance Workgroup, which is led by the Public Health Information Group (PHIG) and Center for Environmental

	<p>Health (CEH) and includes several DOH partners, such as OQPS and others. The purpose of this workgroup is to provide opioid-related data to support statewide prevention efforts.</p> <ul style="list-style-type: none"> • Title V staff work with the PHIG to develop an MCH dashboard for public and health department use to be launched summer 2018 and the Opioid Grant. • Title V staff are participating in the interagency ACES workgroup.
Congenital Malformation Registry (CMR)	<ul style="list-style-type: none"> • Title V staff collaborate with CMR on a CDC Grant regarding Surveillance, Intervention and Referral to services activities for infants with microcephaly or other adverse outcomes linked to the Zika virus including referral for early intervention services.
Other State Agencies	
Office of Mental Health (OMH)	<ul style="list-style-type: none"> • Title V staff are collaborating with OMH to increase maternal depression screening and follow-up support by health care providers. • Title V staff are developing collaborative strategies with OMH to support young children's social and emotional development and provide supports for parents. • OMH is a member of and staff co-chaired the joint task force of the ECAC and EICC, that produced guidance on social emotional development of young children across early childhood systems, including the Early Intervention Program.
Office of Alcoholism and Substance Abuse Services (OASAS)	<ul style="list-style-type: none"> • Title V staff are collaborating with OASAS to increase awareness of FASD amongst providers and preconception and prenatal women. • Title V staff are collaborating with OASAS to develop strategies to identify pregnant women with opioid use and ensure they are engaged in prenatal care, substance use treatment and other needed services. • Title V staff participate on an OASAS workgroup to guide workplan development to address objectives related to universal screening, treatment access, and developing peer services for an in-depth technical

	<p>assistance grant from the National Center for Substance Abuse and Child Welfare, focused on women with substance use disorders and their substance exposed infants in Onondaga, Warren and Washington counties. The is a two-year pilot program (6/2016 – 9/2018).</p> <ul style="list-style-type: none"> • Title V staff serve on the Fetal Alcohol Spectrum Disorder (FASD) workgroup that includes state agencies as well as providers and other stakeholders to develop strategies to address FASD. Developed public awareness messages on the importance of abstaining from alcohol while pregnant. • OASAS is a member of the Early Intervention Coordinating Council. • OASAS staff participate on the Enough is Enough State Interagency Work Group focused on coordinating the Enough is Enough (Campus sexual assault response and prevention) work being done by the state agencies in New York.
Office of Children and Family Services (OCFS)	<ul style="list-style-type: none"> • Title V staff are collaborating with OCFS to provide training and technical assistance to home visiting programs including improving outreach and retention strategies and delivery of information and supports impacting maternal and infant health and early childhood development. • Title V staff are collaborating with OCFS to reduce infant mortality through improved outreach and education strategies to improve safe sleep. OCFS staff participate on the NYS IM-CoIIN stakeholder advisory group focused on reducing infant mortality. • Title V staff attend and participate in annual Child Fatality Review Team (CFRT) meetings which are led by OCFS. • OCFS is a member of the Early Intervention Coordinating Council. • See also Child Care Development Block Grant above.
Office of Temporary and Disability Assistance (OTDA)	<ul style="list-style-type: none"> • The NYS IM-CoIIN Safe Sleep Project team continues to work in collaboration with the NYS OTDA and OASAS on a webinar

	<p>event to address the risks of parental substance use/abuse to sleeping infants.</p>
Office of Prevention of Domestic Violence (OPDV)	<ul style="list-style-type: none"> • Title V staff are involved in ongoing collaboration to address the domestic violence-related training needs of staff working in community maternal & child health, home visiting and family planning programs • Title V staff are collaborating with OPDV on development of training for home visitors on engagement and retention on high-risk clients including those who experience domestic violence. • Title V staff collaborate with OPDV to develop and distribute materials to providers, to increase awareness of domestic violence, supports, resources and tools. • OPDV staff participate on the Enough is Enough State Interagency Work Group focused on coordinating the Enough is Enough (Campus sexual assault response and prevention) work being done by the state agencies in New York.
Office of People with Developmental Disabilities (OPWDD)	<ul style="list-style-type: none"> • Title V staff partner with OPWDD on various issues related to individuals with disabilities. • OPWDD is a member of the Early Intervention Coordinating Council.
Office of Victim Services (OVS)	<ul style="list-style-type: none"> • Title V staff are involved in ongoing collaboration to address needs of programs funded to serve victims of sexual violence and respond to issues that impact victims of sexual violence • OVS staff participate on the Enough is Enough State Interagency Work Group focused on coordinating the Enough is Enough (Campus sexual assault response and prevention) work being done by the state agencies in New York.
State Education Department (SED)	<ul style="list-style-type: none"> • Bureau of Early Intervention staff work closely with SED on the transition of children from the Early Intervention Program to preschool special education services. • SED is a member of the Early Intervention Coordinating Council.

	<ul style="list-style-type: none"> • Title V staff participate on the SED School Health Workgroup and provides input into joint policy and program issues, such as the specifications for times of required physicals for school. • OVS staff participate on the Enough is Enough State Interagency Work Group focused on coordinating the Enough is Enough (Campus sexual assault response and prevention) work being done by the state agencies in New York.
Council on Children and Families (CCF)	<ul style="list-style-type: none"> • Title V staff work with CCF on the ECAC, ECCS Impact grant, Pyramid Model implementation and other early childhood initiatives.
Autism Spectrum Disorders Advisory Board	<ul style="list-style-type: none"> • Title V staff is an Ex Officio member of the newly formed Autism Spectrum Advisory Board, established in NYS Mental Hygiene Law. Representatives from OMH, OPWDD, SED, OCFS, DDPC, and CCF are also Ex Officio members of the board. The Board is charged with improving interagency coordination of services and maximizing impact and effectiveness of services and agency functions for individuals with ASD, among other duties.
Office of Campus Safety (OCS)	<ul style="list-style-type: none"> • OCS staff participate on the Enough is Enough State Interagency Work Group focused on coordinating the Enough is Enough (Campus sexual assault response and prevention) work being done by the state agencies in New York.
Division of Criminal Justice Services (DCJS)	<ul style="list-style-type: none"> • DCJS staff participate on the Enough is Enough State Interagency Work Group focused on coordinating the Enough is Enough (Campus sexual assault response and prevention) work being done by the state agencies in New York.
State Police Campus Sexual Assault Victim Unit (CSAVU)	<ul style="list-style-type: none"> • State Police CSAVU staff participate on the Enough is Enough State Interagency Work Group focused on coordinating the Enough is Enough (Campus sexual assault response and prevention) work being done by the state agencies in New York.
	<ul style="list-style-type: none"> •

Academic Partners and Professional Membership Organizations	
SUNY Albany School of Public Health (SPH)	<ul style="list-style-type: none"> • Title V supports dental public health residency program (up to two full-time dental residents per year), providing them with public health training and experience at DOH on MCH oral health initiatives. • Title V staff collaborated with the SPH on a series of webinars to improve knowledge and practices including topics such as talking with patients about community water fluoridation. • Title V staff collaborated with the SPH on the MCH catalyst grant and co-direct new program (see MCH Training Programs, above.) • Title V staff serve as faculty at the SPH and mentor student interns.
State University of NY (SUNY)	<ul style="list-style-type: none"> • SUNY administration staff participate on the Enough is Enough State Interagency Work Group focused on coordinating the Enough is Enough (Campus sexual assault response and prevention) work being done by the state agencies in New York. • Title V staff partner with SUNY administration on sexual violence prevention activities for their 64-campus system.
Partnership for Maternal Health	<ul style="list-style-type: none"> • Title V staff participates on this group with a focus on decreasing maternal mortality and morbidity. Representatives include ACOG, NYS Association of Licensed Midwives, Healthcare Association of NYS, Greater NY Hospital Association, NY Academy of Medicine, NYC Department of Health and Mental Hygiene, and clinicians from across NYS.
Professional Medical and Dental Organizations	<ul style="list-style-type: none"> • Title V staff collaborate with ACOG to develop and promote best practices to improve perinatal outcomes. • Title V staff coordinate NY's Maternal Mortality Review Committee that includes representatives from NY Academy of Medicine, ACOG, NYS Society of Pathologists, NYS Nurses Association, NYS

	<p>Association of County Health Officials, NYS Association of Licensed Midwives, NYS Academy of Family Physicians, National Association of Social Workers, NYC Department of Health and Mental Hygiene, NYS Association of County Coroners and Medical Examiners, NYC Office of the Chief Medical Examiner, Association of Regional and Perinatal Networks, NYS Office of Alcoholism and Substance Abuse, NY American College of Emergency Physicians, Medical Society of the State of New York, NYS Society of Anesthesiologists, NYS Dietetic Association, Greater New York Hospital Association, Healthcare Association of NYS, and Regional Perinatal Centers.</p> <ul style="list-style-type: none"> • Title V staff work with the New York State Dental Association, New York State Dental Foundation, American Dental Association, American Association of Public Health Dentistry, Association of State and Territorial Dentists, Dental Hygiene Association State of New York and American Academy of Pediatrics, District II New York State to advance dental public health priorities, activities, and programs in NYS.
Cornell University	<ul style="list-style-type: none"> • Title V staff collaborate with Cornell through the ACT for Youth Center for Community Action to support implementation of evidence-based programming and evaluation of adolescent pregnancy prevention/pregnant and parenting teen activities. • Title V staff and Cornell serve as co-PI's on RPE Research study on the implementation of the Council for Boys and Young Men (Brothers As Allies) curriculum with males aged 12-14 to reduce risk for future sexual violence perpetration.
Family and Consumer Partners	
Parent to Parent of NYS	<ul style="list-style-type: none"> • Provided input, guidance and outreach for input on NY's Title V comprehensive needs assessment.

	<ul style="list-style-type: none"> • Title V staff collaborate with PTP to ensure the parent “voice” and point of view is reflected. • Title V staff collaborated with PTP staff to conduct five regional meetings that engaged parents in the CSHCN systems informational input work. • Title V staff connected with PTP staff and obtained input regarding the State Action Plan. • PTP leadership appointed to NYS MCHSBG Advisory Council.
Hands and Voices	<ul style="list-style-type: none"> • Organization comprised of parents and providers dedicated to supporting families with children who are deaf or hard of hearing, regardless of communication modes or methodologies. Provides input into NY’s Early Hearing Detection and Intervention Initiative.
Children’s Dental Health Project	<ul style="list-style-type: none"> • Children’s Dental Health Project (CDHP) is a national non-profit organization that focuses on innovative policy solutions to improve pediatric oral health. MCH staff collaborates with CDHP on various state oral health initiatives, including HRSA State Oral Health Workforce grant.
Other NYS organizations	
Schuyler Center for Analysis and Advocacy (SCAA)	<ul style="list-style-type: none"> • Title V staff participate on the SCAA State Home Visiting Workgroup which facilitates discussions on the critical elements of a statewide home visiting system including outreach and engagement of high-risk families, promotion of a continuum of services, and quantifying need for services. • Title V staff collaborate with SCAA to promote community water fluoridation. • Title V staff collaborate with SCAA on maternal depression. • Title V staff discussed NY’s State Action Plan in a meeting facilitated by SCAA including broad representation such as AAP, MOD, NYSACHO, and other key stakeholders.
Maternal Mortality Review Committee	<ul style="list-style-type: none"> • Convened by the Title V program with representation from over 20 professional organizations and associations.

	<ul style="list-style-type: none"> Reviews aggregate data, discusses trends and emerging issues and provides recommendations regarding opportunities for improvement including additional research directions, preventive measures, strategies to improve care and medical management, and educational needs to be addressed.
NYS CoIIN to Reduce Infant Mortality	<ul style="list-style-type: none"> Statewide collaboration initiated by the Title V program targeting Safe Sleep and Pre/Interconception Care to reduce infant mortality. Includes staff from various state agencies such as the Office of Children and Family Services (OCFS); Office of Alcoholism and Substance Abuse Services (OASAS); Office of Temporary and Disability Assistance (OTDA); Women, Infant and Children's program (WIC); the National Institute for Children's Health Quality (NICHQ); birthing facility staff; doctors; nurses; social workers; community organizations; the March of Dimes; and hospital associations such as the Healthcare Association of New York State (HANYS) and the Greater New York Hospital Association (GNYHA).
NYS Domestic Violence Fatality Review Team	<ul style="list-style-type: none"> Convened by the NYS Office of Prevention and Domestic Violence with representation from over 20 professional organizations and State agencies. Detailed reviews of domestic violence deaths and near-deaths using the information learned to develop comprehensive recommendations for improved system response to domestic violence with the goal of enhancing safety for victims and accountability for offenders.
